

Energy saving that inspires

Philips MASTER LEDlamps - discover endless possibilities to save energy with high quality light

PHILIPS
sense and simplicity

Generali Group, Brussels, Belgium

Energy saving has never looked so attractive

Energy efficient and beautifully effective, LEDs now offer more exciting possibilities for lighting - whatever the application. Create playful moods, add extra sparkle, or light flexible ambiances that enhance your space with the power of light. MASTER LEDlamps are the easy, reliable way to illuminate hotels, restaurants, fashion stores, jewellery shops etc. All with a fast payback time that means your investment will still look good in years to come.

Imagine the possibilities

We have a range of solutions for almost all indoor applications, delivering exactly what they promise on the box. In fact, the results of a recent study by The Dutch Consumer Federation indicate that the Philips LED bulb is of the highest quality and the leading LED in the market.

- **Low costs of ownership**
 - Less replacement costs by long lifetime* up to 45K hours (see below)
 - Up to 85% savings on your energy bill
 - Short payback time: depending on the application, MASTER LEDlamps can pay for themselves in less than one year
- **A broad range**

Our LED lighting solutions are designed for a wide range of applications.
- **Easy to install**

The MASTER LEDlamps are retrofittable into existing lamp holders.
- **Environmentally friendly**

No mercury, less waste and a low carbon footprint, MASTER LEDlamps comply with all European environmental legislation.
- **Warranty**

3 year warranty for all professional LED retrofit lamps (MASTER LED) with a lifetime of 25K hours or more, applicable to all launches after March 1st 2010

Long Lifetime of LED lamps

Winning Awards

Scandic Palace Hotel, Copenhagen, Denmark

Switch to a brighter solution

Sparkling white light, warm and welcoming ambiances, dimmable and controllable, LED now offers even more possibilities. Our MASTER LEDlamps are designed to replace traditional lamps. They provide comfortable warm or clear cool dimmable light instantly – with no compromise whatsoever on light quality.

Long lasting consistency

Our LED technology is so efficient it delivers consistent brightness and intensity over the lifetime of the luminaire. That doesn't just eliminate the maintenance required by traditional lighting. With a lifetime of up to 45 times longer it saves on replacement costs too. So you enjoy "fit and forget" solutions, that pay for themselves within one year.

Sustainable solutions

MASTER LED lamps also make your green credentials look good. Not only are they free of mercury and other hazardous materials, no heat, UV or infrared is emitted in the beam. What's more, they're designed to be fully compliant with all European environmental legislation. A truly sustainable solution that enhances your ambience without harming the planet.

MASTER LEDspot PAR30S - 11W PAR38 - 16W PAR38 - 16W outdoor

Public areas in retail and hospitality outlets can soon run up to high energy bills. This next-generation PAR lamp is an energy-saving alternative with robust design and warm-white light. It's a retrofit replacement of 75W halogen PAR lamps and 80W GLS PAR lamps. The IP44-rated outdoor version of the PAR38 is one of the few energy-saving LED alternatives to incandescent PAR38 outdoor lamps available today.

Enhancing life with

- True warm-white, halogen-like light
- Lifetime 45,000 hours (20,000 hours for the outdoor version): up to 20 times longer lifetime, significantly lower maintenance costs
- Retrofit design, easy to install, compatible with E27 holders

“I was surprised by how much I could save each year with the new lighting.”

Jos van Leeuwen, proprietor of hotel De Prins,
Sittard, the Netherlands

“The MASTER LED lighting offers warm light that does not produce any glare and makes our employees and visitors feel as if they are at home.”

Didier Gason, real estate manager Generali Group, Brussels

“The new lighting plan gives the store a fantastic look and shows our product range to far better advantage. And it’s great that we’ve achieved energy savings on this scale.”

Floortje Dessing, founder of Nukuhiva concept store,
Amsterdam

“Long service life and energy savings. That was what we were looking for.”

Nick Lakeman, Hilton Amsterdam

“The temperature in the rooms dropped, which led to substantial savings on air conditioning.”

Ignacio Montoya (right), Realia, Madrid

“We needed energy-efficient lighting that would also ensure an excellent quality of light throughout our store. The 4W MASTER LEDspot did that perfectly.”

Harry Foley, managing director Hilser Bros Jewellers, Cork, Ireland

“We show that sustainability, aesthetics and functionality really can go together.”

Thomas Schuurmans, Reggs, Amsterdam
